

TABLE 4-6 CONDITIONS THAT REQUIRE MONTHLY MONITORING OF TOXICITY LEVELS

DISCHARGER MONITORING FREQUENCY	SHALLOW WATER DISCHARGERS	DEEP WATER DISCHARGERS
Quarterly		
Three-sample median ^a	> 1 TU _C	> 10 TU _C
Single-sample maximum	> 2 TU _C	> 20 TU _C
Semi-annually or annually		
Single-sample maximum	> 1 TU _C	> 10 TU _C

NOTES:

- a. Exceedance of the three-sample median is defined as follows: If one of the past two or fewer samples shows greater than the toxicity threshold listed above, then a chronic toxicity value greater than the threshold on the next sample represents an exceedance.
